

Due to COVID-19, our department recognizes that there will be certain supplies that are difficult to keep sanitized in our art, music, family & consumer sciences, and applied technology courses.

To help keep our students safe, we ask that the students purchase the supplies within this packet. These supplies will come to school with your child during in-person learning and will help them complete projects at home if it becomes necessary to return to virtual learning at any point of this year.

Products are linked to Amazon for your convenience, but you are welcome to purchase these supplies for any vendor of your choosing.

Thank you for helping us make this a successful school year!

*Department of Visual & Performing Arts and Related Areas*

*COVID-19 has impacted our community financially in a variety of ways. If purchasing the needed school supplies for this coming school year truly is not feasible, please contact our staff so that they can try and help.*

## TABLE OF CONTENTS

***\*\*If you have items at home that are on our list, you do not need to purchase duplicate items. This list is a guide to help families ensure their student(s) can fully participate in our classes this year by having these supplies available to them at home and in school.***
